category in private schools, is yet to begin.

In the academic session 2023-24, admissions under the scheme are to be provided to students from classes III to XII.

As per the information, the Directorate of Elementary Education in January had issued a schedule for the admissions under the scheme and the recognised private schools were asked to declare class-wise seats in their respective schools by January 31. The students and parents were to apply for the admissions from March 15 to 31 and the process was to be

REVISED SCHE

The last date to up and the verification pro level. We are expecting be issued soon and stu benefits of the scheme.

completed by April 10.

However, on March 17, another letter was issued wherein the directorate mentioned that a revised schedule for the admissions will be issued because form VI was not uploaded by the private schools on the department's online portal. Due to this, the

Cos aim to recruit candidates with capabilities, not de

By Anita Rajan

A university or college degree has long been the traditional hallmark of a qualified candidate in the professional arena. While it historically provided the most widely-accepted standard of qualification and skill for professionals, many companies today are changing their hiring practices and considering a broader set of criteria to judge a candidate's suitability.

Organisations are reducing their reliance on college degrees as a sole marker of competence, and instead placing greater emphasis on the practical skills candidates have acquired through work experience and specialised courses.

This shift in hiring is of particular relevance to India, which has the largest youth population in the world. Approximately 66% of the Indian population is below the age of 35, many of whom begin their careers without a university

degree or specialised qualifications. However, they represent a tremendous pool of young talent that is capable and willing to learn.

As companies recognise the untapped potential of these candidates, it has resulted in a shift in hiring practices. Recruiters are increasingly inclined to favour candidates with practical skills who are eager to learn, even if they lack a formal qualification. This approach is helping them tap into the vast pool of Indian talent, by invest

ing in promising candidates and evaluating them holistically beyond just their academic qualification.

The new era of hiring thus involves a variety of steps and system-wide changes to the ecosystem, which is not only helping companies acquire better talent and improve their performance, but also helping candidates from underprivileged backgrounds stand out in the professional arena.

ing in promising candidates and evaluating them holistically beyond just their academic qualification.

The new era of hiring thus involves a variety of steps and system-wide changes to the ecosystem, which is not only helping companies acquire better talent and improve their performance, but also helping candidates from underprivileged backgrounds stand out in the professional arena.

ing in promising candidates and evaluating them holistically beyond just their academic qualification.

One of the primary pillars of this new approach is the implementation of extensive on-the-job upskilling, which has become an integral part of the professional journey for new talent.

By helping candidates upskill themselves to meet the full requirements of their current or target role, companies are creating opportunities for talent who may not have specialised qualifications. It offers a holistic learning experience and

personal growth, in addition to professional development for candidates.

Roles that offer on-the-job upskilling are also an attractive option to future candidates who are in growth stages of their careers. Upskilling employees consistently produces better performance, reduces attrition, and enables organisations to remain competitive amid economic turmoil. This has encouraged a growing number of companies today to offer skill development courses from reputed third-party entities or in-house leadership for their employees.

Another version of upskilling initiatives under the new hiring approach is to offer open-access employability programmes for young talent. These programmes train youth for specific industry roles that a company aims to staff, and is a convenient fast-track opportunity for capable candidates to enter the workforce without formal qualifications. This has been especially

बेमौसम बारिश से फसलों को हुआ नुकसान

सहरनपुर (एसएनबी)। जनपद में विगत दो दिनों से रुक-रुक हो रही बेमौसम बारिश के चलते एक ओर जहां गेहूं की फसल बर्बाद हो गई वहीं दूसरी ओर ईट भट्टों पर हुए नुकसान के चलते ईंटों का भाव भी बढ़ने की संभावना बलवती हो गई है। संसाधनों की कमी के चलते गेहूं की फसल समय से न कटने तथा कटने के बावजूद श्रैसिंग न होने के कारण किसानों का भारी नुकसान उठाना पड़ रहा है। वहीं दूसरी ओर मई महीने में बेमौसम बारिश व पहाड़ों पर बर्फ गिरने के कारण तापमान में काफी गिरावट आ गई जिस कारण लोगों को परेशानी का सामना करना पड़ रहा है। बेमौसम हुई बारिश के कारण लोग संक्रामक बीमारियों की चपेट में आ गए हैं। उधर शादी-ब्याह का सीजन होने के कारण लोगों को भारी परेशानी हुई।
